### Signing up for EasyChair: Step 1

\*\*\*\*\*

To use EasyChair, one should first create an account. This is done to prevent misuse of the system. The procedure for obtaining an account is the following.

1. You should type the two words that you see in the image below and click on "Continue".
2. If you type the words correctly, you will be asked to fill out a simple form with your personal information.
3. After you filled out the form, EasyChair will send you an email with a link that you can use to create an account.

\*\*\*\*\*

Please enter the words you see in the box, in order and separated by a space. Doing so helps prevent automated programs from abusing this service. If you are not sure what the words are, either enter your best guess or click the reload image  next to the distorted words.

### 3) Yeni hesaba ait ad, soyad ve eposta girilir.

#### Signing up for EasyChair: Step 2

\*\*\*\*\*

Please fill out the following form. The required fields are marked by (\*)

Note that **the most common reason for failing to sign up is an incorrect email address** so please type your email address correctly.

## Account Application Received

We received your application. A mail with further instructions has been sent to the email address ryeniceri@hotmail.com.

## If You Do not Receive the Instructions

If you do not receive our mail with instruction on how to create an account, please read the following information.

Our mail server normally sends all mail within a few seconds. The following is an incomplete list of possible reasons for the problem.

### *Incorrectly typed email address*

This is still the most likely cause of delays.

### *Slow mail processing*

Some mail servers process mail for a long time. For example, your mail server may spend a lot of time checking incoming mail for spam.

### *"Reply-me" mail protection.*

Some mailers, when receiving a mail from an unknown sender, ask the sender to send a mail with specific content to ensure that it has been sent by a human. Account-related emails in EasyChair are sent by a computer program, so if your email address uses such a protection, you will never get our mail. If you have such a protection and it is configurable, configure it to accept mail from the domain easychair.org.

### *Mail box problems and quotas*

Some mail sent by EasyChair bounces back because the mail box of the receiver is over quota.

### *Anti-spam filters*

It is possible that your spam filters will classify our mail as spam. Please check your spam mail boxes.

### *General connection problems*

There might be general connection problems, for example your mail server may be unreachable for a long time.

Unfortunately, we have no resources to cope with all possible kinds of mail server (mis)behavior. If you believe you have a problem related to your mail server and want to solve it quickly, try to get and use an email address from one of major mail hosts, such as a Google Mail, Yahoo Mail, or Hotmail to name but a few. You will be able to change your email address in EasyChair or have multiple email addresses later when you have an account.

You can repeat your application at any time. Another mail will be sent to you.

## 6) Epostada gelen bağlantı açılarak aktivasyon yapılır.
